Dr. Yukinori Hirota  
Department of Genetics  
Medical School, Osaka University  
33 Joancho  
Kitaku, Osaka, Japan

Dear Hirota:

I have been very sad about the developments you mention in your letter of April 21. All I can hope, and I don't know what basis there is for it, is that the policy will be changed again in a year or two before it does real damage. I am afraid I have no useful suggestions about other support.

Sincerely yours,

Joshua Lederberg  
Professor of Genetics

Y. Hirota
